

EXAM SUBMISSION FORM

Student: John Doe

Date: 2024-01-01

Q1: The answer is forty-two.

Q2: Because of thermodynamics.

Q3: The derivative is $2x$.

Q4: By integration by parts.

Q5: The limit approaches zero.

Q6: Using Pythagorean theorem.

Q7: The answer is π squared.

Q8: Via Greens theorem.

Q9: The eigenvalue is negative.

Q10: The matrix is invertible.

Q11: The series converges.

Q12: By induction on n .

Q13: The function is bijective.

Q14: The group is abelian.

Q15: The field has char zero.

Q16: The topology is Hausdorff.

Q17: The measure is sigma-finite.

Q18: The operator is bounded.

Q19: The spectrum is compact.

Q20: The manifold is smooth.
